Par Éric Valette. Le 19 November 2013

Illustrated conference performance, on the basis of a historic timeline of Cyprus. 35° north/34° east is the location of the small section of the beach enclosed in the buffer zone that divides the island in two, just below the closed city of Famagusta. This city was the starting point of a collective project, *Suspended Spaces*, in the context of which *35°Nord 34°Est* was realized in response to the importance of the readings and representations of history in a conflict situation like that of Cyprus.
